

You're dashing out of your hotel room.
Did you remember your charger?

You're leaving for the day.
Did you remember to unplug your chargers?

How it works.

Perch chirps when you leave your charger behind

Introducing Perch, a brand-new answer to a growing problem. Perch is an innovative accessory that plugs in to your laptop, cell phone, MP3 player and other electronic chargers, and chirps to remind you to unplug and take your cords with you.

Saves time.

Never run back to your house or hotel to retrieve a forgotten charger.

Saves money.

Stop buying replacement chargers, and hold on to the ones you have.

Saves energy.

Put an end to energy wasted by chargers left plugged in to the wall.

Saves hassle.

Don't show up to that important meeting with no way to charge your dead battery.

When your device is removed from its charger,

Perch chirps to remind you to take your cord.

Simple.

Friendly.

Reliable.
